INTRODUCING EVERYVERSE.ORG

The Every Verse Project is an online effort to compile evidence for each verse the Book of Mormon. The premise of the initiative is that each verse contains at least one verifiable certainty, either textual or archeological, that is just waiting to be uncovered. EveryVerse.org seeks to unite the combined research of saints around the world within the Book of Mormon text itself. Each verse on the site has a section under it that allows users to contribute evidence.
